Rabka Zdrój, Poland  
10.09. – 17.09.2014

Training course called Communic8 brings together to Rabka Zdrój between 10 – 17 September 2014, 24 experienced leaders, trainers, youth workers, project managers from Albania, Bosnia & Hercegovina, Slovakia, Slovenia, Republic of Macedonia, Lithuania, Poland and Serbia. The main aim is to focus on very important subject as communication in different aspects of it and its importance in future employment and youth work. Starting from the simplest human communication and its varieties as verbal and nonverbal, computer mediated communication, through social and marketing communication up to cross-cultural, but also to point out to the participants how important communication is in order to disseminate and exploit the results of their projects. By using non-formal education methods we will try to emphasize to our participants significance of dialogue on each level of their life, starting with their closest people, but also during job interviews and formal meetings, projects management and implementation as well as on intercultural European level. Participants will be also involved in different activities through the methodology of non-formal education such as simulations, role-playing, open space discussions, brainstorming, ice-breakers and reflection groups. The procurement of such competences will be helpful for young people to apply it in their everyday life, traveling- meeting representatives of other religions and countries, which is increasingly common in the old continent - when searching for a job, which is extraordinarily important during the incredibly high unemployment rate in Europe. The result of this Training Course will be creating manual about all types of communication, which will be a useful handbook for all interested in the topic.
